

## Winter Lodge Physical Assistance Waiver

PHYSICAL ASSISTANCE WAIVER DUE TO COVID-19: Winter Lodge basic skills classes are operating in a social and physical distancing environment. However, even with all of our best efforts, there may be times when the prescribed (6') distancing recommendation will be breached by accident or for the safety of the skater. In addition, our instructors will physically correct if absolutely necessary in order to teach skills safely. Direct assistance will be provided in the event of an injury.

**I am aware that, while ice skating is an individual sport, there may be times when incidental contact will occur. I understand and agree that physical assistance may be part of my child's learning process at Winter Lodge. I agree to permit my child's instructor to physically assist my child if needed.**
